

Global 3000 Enhancement Note

Improve Customer/Supplier Find

Author	Rick Robinson	
Project	Document1	
Version	1.0	1 of 2

INTRODUCTION

The items which can be included in the text match within the customer and supplier find windows have been extended.

The criteria used to search for customer and supplier accounts has been extended.

The customer/supplier text find window has been updated to include two new prompts. These allow the customer/supplier contact names and company registration number (CRN) to be included in the text searched for.

It should be noted that the abbreviation 'CRN' is used throughout the HMRC website when referring to the company registration number, this abbreviation has also been adopted within the software.
