

# Global 3000 Service Pack Note

## **Product Search - Long Description**

Author	DCP	
Project	ZM60_000236.doc	
Version	1.0	1 of 7

#### INTRODUCTION

This service pack extends the product search views to include a new button which allows the product long description to be displayed. In addition two new product search views have been created which include the first three lines of the product long description.

This service pack extends all ten of the current views available within the product search to include a new button labelled 'Long Description'. When the new button is pressed the long description for the current product is displayed.

In addition two new views have been created which include the first three lines of the product long description along with a button labelled 'More' which when pressed displays the full product long description.
