Global 3000
Service Pack Note

Global 3000 Debtors Ledger
Transaction Entry - Batch Filters

| Author	DCP	
Project	ZD60_000465.docx	
Version	1.0	1 of 2

INTRODUCTION

This service pack extends the batch filters within transaction entry.

The batch filters within transaction entry have been expanded to include options to filter exchange gain/loss and transaction revaluation batches.

DOCUMENTATION CHANGES

DL Transaction Entry – Batch Filters Window

Include revaluation batches?	Set this to include currency revaluation journal batches in the list.
Include exchange gain/loss?	Set this to include exchange gain/loss journal batches in the list.
