

Global 3000 Service Pack Note

Original Batch Receipt Date

Author	DCP		
Project	Z160_000031.doc		
Version	1.0		1 of 4

INTRODUCTION

This service pack updates the batch record to store the original batch receipt date and retain it when stock is transferred from one location to another.

The changes are:

All places that create stock batch records (within modules, Stock Control, S.O.P., P.O.P., E.D.I., Manufacturer and Landed Costs) have been updated to mark them with the original creation date.

Stock Transfer has been updated to retain the original stock receipt date when stock is transferred from one location to another and a new batch is created.

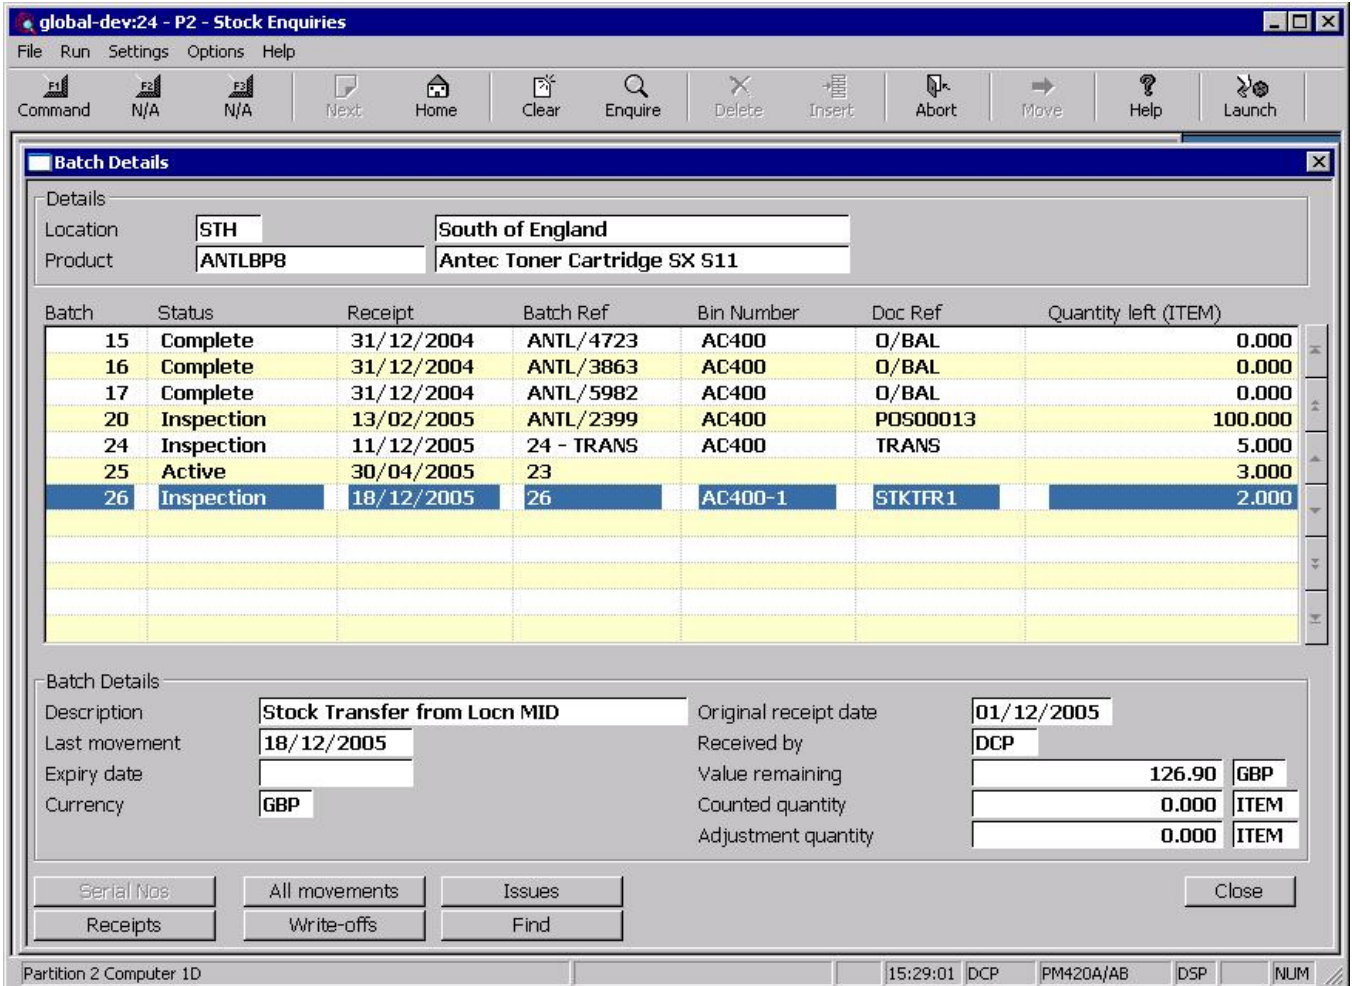

Note: If stock is transferred into an existing batch then the original receipt date of the receiving batch is not updated.

Stock enquiry windows showing batch details have been updated to display the original stock receipt date.
