

Global 3000 Service Pack Note

Product Details - Recommended Retail Price

Author	DCP		
Project	ZM60_000537.docx		
Version	1.0		1 of 2

INTRODUCTION

This service pack provides the ability to show products R.R.P. within enquiries.

The changes introduce a new option (labeled 'R.R.P.') at product level. The option which is only available for stocked products allows the R.R.P. (recommended retail price) to be specified for information purposes. It is displayed within enquiries and within the standard product search.

Note, the R.R.P. is intended for information purposes only; it does not have an associated currency and is not used in any cost or price calculations.

DOCUMENTATION CHANGES

Product Maintenance – Sales Details Window

R.R.P. (Only available for stocked products) Set this if this product has an R.R.P. (recommended retail price) and it is to be displayed within enquiries and the standard product search.

Note The R.R.P. is intended for information purposes only; it does not have an associated currency and is not used in any cost or price calculations.
