The request is for a report which lists price list entries which are due to expire.

A new report has been created which prints the following details for prices that expire between two user specified dates.

- Price List,
- Currency,
- Product,
- Product Description,
- Expiry Date.

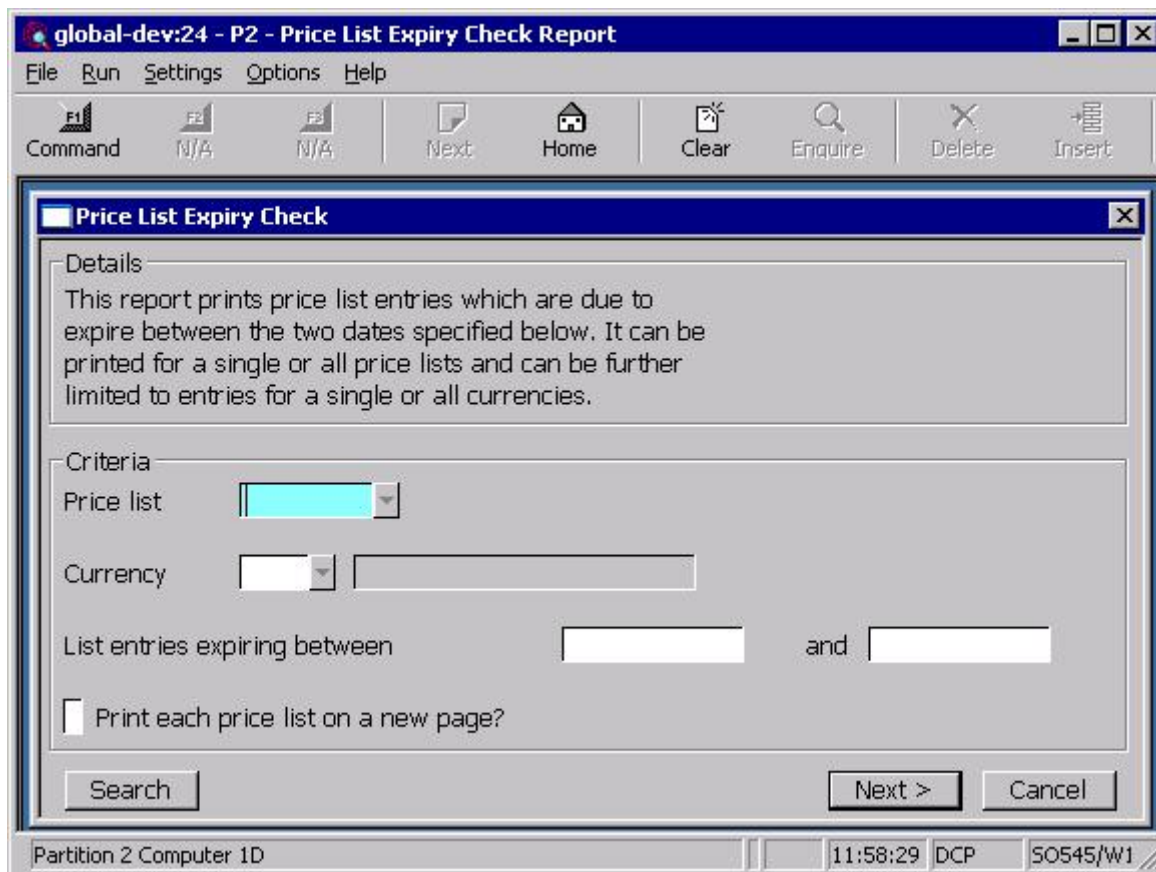

The new report has the following selection options.

- Price List (defaults to 'All').
- Currency (defaults to 'All').
- List entries expiring between (date) and (date).
- Print each price list on a new page (Y/N).

DOCUMENTATION CHANGES

Price List Expiry Check Window

This window appears when you select the 'Price List Expiry Check' option from the SOP Price and Discount Maintenance Menu.

Purpose This report lists price list entries that are due to expire between two specified dates. The report can be printed for a single or all price lists and further limited to entries in a single or all currencies.

The prompts are:

Price list Enter the price list for which the report is to be printed (a search is available), alternatively leave this blank to print the report for all price lists.

Currency If you wish to limit the report to entries in a particular currency, enter the currency here (a search is available), alternatively leave this blank to print the report for all price list entries.

List entries expiring between. Price list entries which will expire between these two dates are included in the report.

Print each price list on a new page? *(Only if printing for all price lists).* Set this to start a new page on the report for each price list containing entries expiring between the two specified dates.
